

WHAT PEOPLE SAY ABOUT THE
LIFE VISION RETREAT:

"The group was terrific; I met many wonderful people I connected with. Exposure to multiple healing modalities and how to integrate the best of them into my life. Learned great techniques to bypass monkey mind to reach a deep meditation state."

—Donald Christensen

"The journey into discovering our inner guidance is one that I know I will now use daily and I look forward to the ongoing conversation." —Daphne C.

"This retreat gave me a deeper sense of how to meditate in a non-spiritual way, a more imaginative & subconscious pathway to my inner self. The different exercises in relaxation and energy consciousness were something I will practice after I leave." —Bernice Taub, MFT

"I really enjoyed that Dawson grounded us in the science of what we were doing. It gave logic and structure to an experience that can sometimes be hard to understand. I loved the way these simple energy based self-awareness techniques can help in everyday life."

—Antonio Moderato, LSW

"This is a great collection of user-friendly techniques to shift your energy and access non-local levels of awareness. I developed, through the many practical exercises, a doable daily practice for myself, as well as learning the science behind why these approaches work." —Allison Handy-Spiller, LPC

"I enjoyed the wide range of information and exercises from science, mysticism, and energy psychology. I appreciated the EcoMeditation practice, I felt it is well anchored in my system now. The beautiful location enhanced the content and supported it." —Iva Tashlick

NEW YEAR

Life Vision

RETREAT

SPEND A WEEK
IMMERSED IN THE
MIND OF THE UNIVERSE
AND EMERGE WITH
THE HIGHEST VISION
OF YOUR FUTURE

THE DEEPEST ANSWERS
REQUIRE SPACE AND TIME.

ART, NATURE, AND ENERGY HEALING
INVOKE CREATIVE BREAKTHROUGHS.

EMERGE RENEWED FROM THIS
“WOMB OF CREATION.”

Immerse yourself daily in the “mind of the universe,” and draw your vision of your future from that highest source. Emerge from this “womb of creation” with renewed:

- ∞ *Connection with your highest version of self*
- ∞ *A vision for your most inspired possible future*
- ∞ *A road map for the year ahead*
- ∞ *The skill to tune into the most elevated emotional states daily*
- ∞ *Energy for your journey into your greatest future*

In moments of self-reflection, we find ourselves asking profound questions about the lifetime that stretches ahead of us. Questions like:

“What is the highest vision for my life?”

“What choices today will make me happiest in the future?”

“How do I shape my life to express my fullest potential?”

“How can I reconnect with my source of inspiration and joy each day?”

“What’s best for the life stage I’m in right now?”

“What place in consciousness holds my most elevated possibilities?”

To get the deepest answers requires space and time. If we can enter those high spiritual and mental levels that lie far beyond our everyday perceptions, we gain a vision for our lives that far transcends our old possibilities.

To facilitate the process of accessing your highest possible potential, each year Dawson Church guides a small number of hand-picked people in a carefully structured Life Vision Retreat. Over the course of a week, the group engages in sacred practices that tune them to the highest possible energy states.

Using writing, art, nature, EcoMeditation, guided imagery, music, energy healing, neurofeedback and shamanic journeying, you use symbolic and nonverbal processes to invoke creative breakthroughs from deep within.

If you feel called to this sacred and rare experience, complete the application form at LifeVision.Today.
